

NFC NETWORK FLOOR STANDING RACK & ENCLOSURE

Features and Benefits

- **Applications:**

NFC Network racks and cabinets are structured enclosures designed to organize, protect, optimize, and manage networking, telecom, and IT equipment. They provide a secure framework for servers, switches, patch panels, and AV systems while ensuring compliance with international standards. They are the foundational component of a well-organized data center, server room, or network closet, delivering reliability, scalability, and professional presentation..

- **Key Features:**

- **Surface finish:** Degreasing, pickling, phosphating, electrocoating, and powder coating with a thickness of 80µm–100µm. Compliant with RoHS standards.
- **Ventilation:** Vented top covers, fan mounting provisions for cooling Perforated front and Perforated Dual-door design improves accessibility while maintaining ventilation.
- **Side Panels:** Lockable and removable side panels for easy installation and maintenance.
- **Cable Access:** Top/Bottom Brush strips or grommets for cable entry/exit.
- **Cable Management:** Multifunctional cable management boards located on both sides of the rear Section.
- **Mounting:** Mounting rails with clearly marked U positions for precise equipment installation.
- **Cabinet Structure:** Efficient and robust cabinet connections for enhanced stability.
- **Grounding:** Optional provision of earthing kits for safety and compliance.
- **Security:** Lockable front and rear doors to keep equipment secure.
- **Base Options:** Optional plinth available to support cabinet fixing, bottom wiring, and ventilation.
- **Mobility & Support:** Equipped with adjustable feet, heavy-duty castors, and support feet for flexible placement.
- **Load Capacity:** Maximum static load capacity of up to 800 kg.
- **Accessories:** A full range of optional accessories available for customization

Physical Specification

- **Structure:**

Enclosure Type: NFC Series Network Rack /Enclosure

Mounting Type: Horizontal 19 inch front & Rear

Material: Cold-rolled Steel

Frame Thickness: 1.5mm

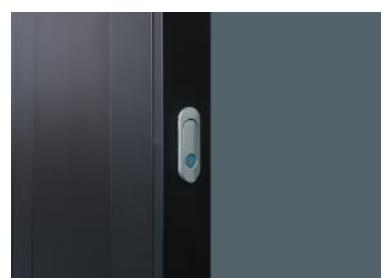

Mounting Rail Thickness: 2.0mm

Side Panel Thickness: 1.5mm

Front & Back Doors Thickness: 1.5mm

Fix & Sliding Shelf Thickness: 1.5mm

Color: Black (RAL9004)

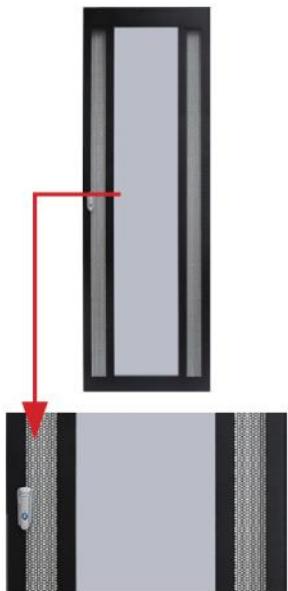

Doors and side panel Locking Systems

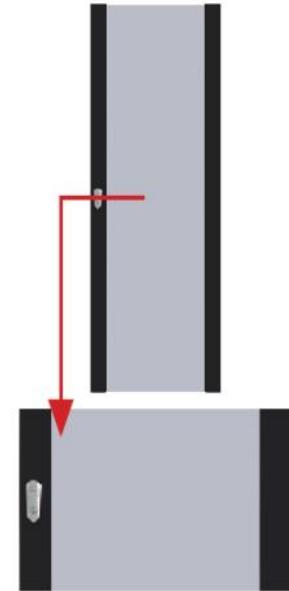

NFC NETWORK FLOOR STANDING RACK & ENCLOSURE

Doors Options

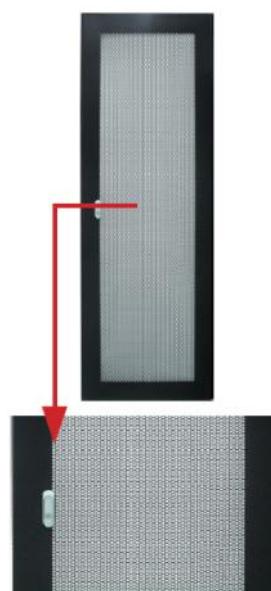

A
Smoky Glass Door
with both side perforated

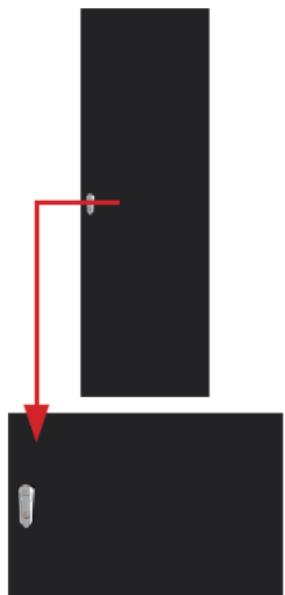

B
Smoky Glass Door

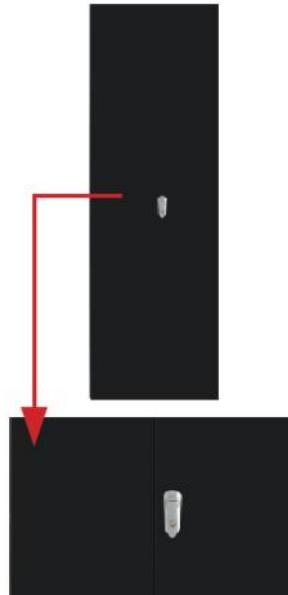

C
Perforated Single Steel
Door

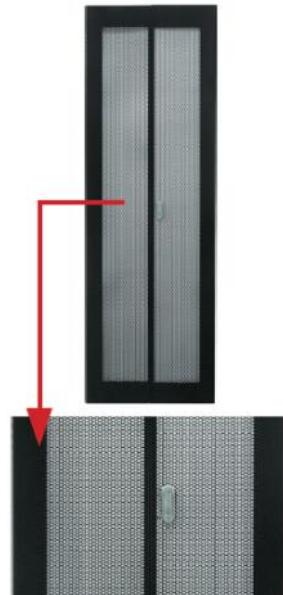

D
Steel Plain Door

E
Steel Plain Double Door

F
Double Steel Door
(perforated)
